

Steps to Translate a Website into Your Preferred Language

USING GOOGLE TRANSLATE

Go to Google Translate

translate.google.com.au/?sl=auto&op=websites

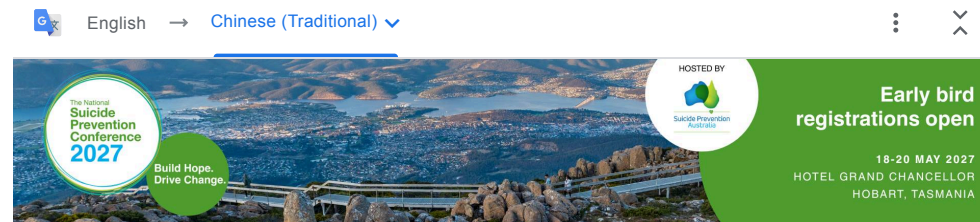

The screenshot shows the Google Translate website. At the top, there is a navigation bar with the Google Translate logo, a settings gear icon, a grid icon, and a 'Sign in' button. Below this is a row of buttons for 'Text', 'Images', 'Documents', and 'Websites'. The 'Websites' button is highlighted. Below the buttons is a language selection bar with 'Detect language' and a list of languages: English, Spanish, French, Chinese (Traditional), Ewe, and English. The 'Chinese (Traditional)' option is selected. Below the language bar is a large text input area. Inside this area, there is a 'Website' label and a text box containing the URL 'https://members.asnevents.com.au/register/event/2070'. To the right of the text box is a blue circular button with a white right-pointing arrow. Three green callout boxes with arrows point to specific elements: the first points to the 'Chinese (Traditional)' language selection, the second points to the URL in the text box, and the third points to the blue arrow button.

1) Select the language you wish to translate to

2) Put in the Website's link that you wish to translate

3) Hit the arrow

Browse the Website in Your Preferred Language

註冊或提交作品參與本次活動

建立**Currinda**個人資料即可註冊參加本次活動或提交摘要。
